Peso variabile +/- 10%  
Variable weight +/- 10%

Il battiruota è prodotto per iniezione e stampaggio a caldo partendo da una matrice polimerica a base di PVC riciclato con aggiunta di plasticizzante

*The stop parking is produced through warm injection moulding starting from a polymeric matrix made of recycled PVC with the addition of plasticizer.*

**Stampaggio ad Iniezione Eco-Compatibile**

**ECOLOGICALLY FRIENDLY INJECTION MOULDING**
